DAY TODAY

BY PETER VIDAL

ARIES (Mar 21 - Apr 20)

There may be a general feeling this week that it's too late. 'Too late for what?' you may ask. In your case, you just might have no time left to complete a favoured project at work, or to get a number of routine tasks satisfactorily completed. Actually, though, there's more time than you think.

TAURUS (Apr 21 - May 21)

Don't sit still today. The approaching lunar cycle is ideal for all adventurous, creative and expansive Taurians. Please don't pass up a golden opportunity by being a stick-in-the-mud. And, besides, if you miss out on this week's offers you'll kick yourself.

GEMINI (May 22 - June 21)

The tensions may be building up at home, but an argument may not materialise, a little like a thunder storm which builds up and then fails to break. Deft footwork will aid your cause, and they'll even be times when you're able to disappear into the background.

CANCER (June 22 - July 23)

Concentrate on letting other people know what you think and how you feel. The entire emphasis of the moment is on communication, so many of you may be called away on a short journey. In that case, my sincere advice is to check, double-check and treble-check all essential details.

LEO (July 24 - Aug 23)

Two important celestial factors, one Mars and the other Saturn, are responsible for making this a generally auspicious day. One word for the whole week, though, is to keep a close eye on financial comings and goings. Above all, be as utterly practical as you can.

VIRGO (Aug 24 - Sep 23)

You're in for a bit of a bumpy ride but Mercury, the planet which rules your mental processes, should compensate for any disappointment caused by recent delays. You may, briefly, have to go over old ground, but the results of such persistence will be splendid.

LIBRA (Sep 24 - Oct 23)

Look very closely at an issue which may cause a little pain. You have nothing to fear because, over the next seven days, the planets are assuming a pattern which simultaneously favours both your inner, private world and your successful public demeanour.

SCORPIO (Oct 24 - Nov 23)

It's time to put your own ideas forward, regardless of what society says. Don't stand on ceremony, but do make your personal status the overriding factor. Professional and community-minded Scorpios will do best; those of you stuck at home may watch the world drifting by.

SAGITTARIUS (Nov 24 - Dec 23)

Seen from one angle, the situation at work this week could not be more auspicious, yet there is a chance that you could let a marvellous opportunity slip from your grasp. Move, without delay, to a position where nobody can challenge you - and everyone supports you.

CAPRICORN (Dec 23 - Jan 20)

There's no denying that it will take a great deal of effort to reach your goals, but then that's part of what being a Capricorn is all about. Yet if you stick to your principles, it will be so much easier. For one thing, you'll earn family members' respect.

AQUARIUS (Jan 21 - Feb 19)

It may be necessary to take swift action to rectify a blunder, possibly one with financial overtones, yet by the end of the week you will see that principles are so much more important than profit. Your major priority is to build up your support network, seeing to it that friends are on your side.

PISCES (Feb 20 - Mar 20)

Always remember that people like you because you're you, and you really don't have to put on an act if you don't want to. Personal relationships should now be eased by the fact that partners seem to be listening to you for a change. And about time, too, you might think.
